The race track configuration was changed again this week. All chicanes were removed and the drivers ran wide open the entire track. Most the drivers said the open track was really a lot of fun and it made the races even closer. The races are so close now that most of the racers have to draft with another competitor to be competitive and the winner is usually determined in the last corner before the checked flag.

Our next race will be on Wednesday September 23, 2009. The champion will be crowned on September 30<sup>th</sup>. Spectators are welcome.
